

ANNEXURE-II

Consumption of Chemical (To be Filled by the Bidder)

SI No	Process System	Recommended Chemical	Required Dosage (ppm)	Consumption (Kg/Month) Based on Operating Condition as per SCC	Guaranteed Consumption (Kg) for 1 year based on Operating Condition as per SCC (For 704000 MT of Steam Production for BFW Chemical and 43200 MT of HPG Production for antioxidant)	Dilution Required (Yes/No)
1	BFW Treatment chemical - Oxygen Scavanger					
2	BFW Treatment chemical - For Corrossion control					
3	BFW Treatment chemical - For feed water & Condensate PH control					
4	Antioxidant for Pyrolysis Gasoline
