The quoted rates shall remain firm during the contract period and no escalation will be granted on whatsoever ground, including among others, increase in the cost of spares/ tyres or levies etc. as mentioned above. The transportation rates per MT equipment , pipes etc. shall be subject to variation only on account of variation in the price of High-Speed Diesel (HSD) as officially announced by oil Companies and as per the minimum price prevailing at District of pick-up point of respective consignment from time to time. The variation in rate shall be calculated on the basis of consumption of HSD @ 4 Kilometers per liter of HSD. The applicable price of HSD for a calendar month shall be considered as per the price of HSD prevailing on 25th of the previous calendar month. The above change in the freight rates shall be undertaken only if the variation in the price of HSD is beyond $\pm 5\%$ from the previous prevailing base rate of HSD at which the variation in rates was undertaken.

The formula for Price Variation is:

Revised Freight Charges= Base Freight Charges + Difference in Freight charges after revision of HSD price

Difference in Freight charges after Revision of HSD price

Revision of HSD price = $\frac{(\text{Revised HSD price} - \text{Base HSD price})}{4 \times \text{Truck Load in MT(16)}}$ Rs /Km/MT

where 4 is the Km per liter of HSD

Accordingly, for submitting the quotation against this tender the bidders should take the price of HSD District of pick-up point of respective consignment, as on 25th day of month, prior to the date of opening of techno-commercial bid as base HSD price.
