(ii) Original work/service order/contract/agreement and its completion / execution certificate or equivalent should be available with the bidder for verification of the same, if so desired by BCPL.

A.1.2 **Relaxed Norms for Startups in prior experience criteria:**

Note to above Bid Evaluation Criteria (Serial no. A of BEC):

-
- (i) A job executed by a bidder for its own plant/projects cannot be considered as experience for the purpose of meeting the requirement of BEC of this tender. However, jobs executed for Subsidiary/Fellow subsidiary/Holding Company will be considered as experience for the purpose of meeting BEC subject to submission of tax paid invoice (s) duly certified by Statutory Auditor /Chartered Accountant of the bidder towards payments of statutory tax in support of the job executed for Subsidiary / Fellow subsidiary / Holding company. Such bidders to submit these documents in addition to the documents specified in the bidding document to meet BEC.
- (ii) **However, Bids of Joint Venture/ Consortium and sub-contractors are not acceptable.**
- (iii) For experience based on composite works: In case bidder has executed a composite work in a single contract which includes qualifying work stated above, then value of such qualifying work out of total value of composite work shall be considered for the purpose of evaluation.
- (iv) **The cut-off date for meeting the criteria of BEC of the tender shall be the due date for unpriced bid opening.**

B. Methodology for Evaluation of Bids & Award:

- B.1** BCPL will evaluate and compare the Price bids of the techno-commercially qualified bidders whose bids are previously determined to be substantially responsive pursuant to "ITB: Clause-29".
- B.1.1** Bidder can quote for any one Part or more than one Part or for all Part(s). The bidder should clearly indicate the Part(s) against which they are submitting their Bid by specifying in their covering letter as well as marking in Blank SOR with 'Quoted/ Not quoted'.
- B.1.2** Bidder shall quote for each Part as an independent job. For the purpose of evaluation of bid and arriving at the L1 bidder, the total value of SOR for each Part shall be considered excluding taxes/GST.
- B.1.3** If a bidder happens to be Lowest in more than one Part(s) but has qualified only for one or more than one of the Part(s) and not all the quoted Part(s), award of Contract will be based on "Least Cost to BCPL" basis, Part wise, as the case may be. BCPL's decision in this regard shall be final and binding on the bidder.
- B.1.4** Bidder not meeting any of the above mentioned criteria shall be rejected without assigning any reason whatsoever.

- B.2** In case **of tie** between bidders, job shall be awarded to the bidder having higher turnover in last audited financial year.
- B.3** If a Startup company [whether Micro & Small Enterprises (MSEs) or otherwise] as a bidder gets qualified without any prior experience & turnover criteria as mentioned above and emerges as lowest evaluated bidder (L1), the LOA / Order on such Startup shall be placed for entire tendered quantity.
[However, EIC's of that contract shall draw monthly milestones / check points during the Kickoff Meeting and shall review the performance more carefully and take action as per provision of contract in case of failure / poor performance.]
- B.4** In case of **a tie** at the lowest bid (L1) position between two or more non-Startup bidders, then LOA / Order shall be placed on the bidder who has higher / highest turnover in last audited financial year, **2017-18**. In case, audited financial result (Balance sheet and profit & Loss account statement) of **FY: 2017-18** is not audited on the due date of 'submission of bid/bid closing date', in such case audited financial result (Balance sheet and profit & Loss account statement) **FY: 2016-17** shall be considered.
- B.5** In case, there is **a tie** at the lowest bid (L1) position between only Startup bidders and none of them has past turnover, the LOA / Order shall be placed on the Startup who is having highest working capital as compared to other(s).
- B.6** In case, there is **a tie** at the lowest bid (L1) position between Startup bidders and non-Startup bidders; then LOA / Order shall be placed on the bidder having highest working capital in last financial year, **2017-18 duly certified by Chartered accountant**. In case, audited financial result (Balance sheet and profit & Loss account statement) of **FY: 2017-18** is not audited on the due date of 'submission of bid/bid closing date', in such case audited financial result (Balance sheet and profit & Loss account statement) **FY: 2016-17** shall be considered.
- B.7** **CPBG: Nil**
- B.8** **PPP Policy 2012**
Considering the nature of job, splitting of quantities will not be possible in this case and hence the clause for award of 20 % of ordered quantity to MSE as per PPP 2012 is not possible. Therefore, MSE quoting price within price band L1 (other than MSE) + 15%, may be awarded for full/ complete services of tendered value subject to matching of L1 price as per ITB of tender document.

*In case more than one MSE bidder(s) quoting within the price band of L1+15% and tender item is non-divisible, then in such case, the MSE bidder(s) shall be asked to match the price of L1 bidder sequentially in the order of L2, L3, L4 & so on. In case of tie, the MSE bidder having highest turnover shall be awarded subject to matching of L1 price
Being a non-splittable case, the above provision shall be applicable which shall supersede the ITB.*

NOTE TO "BID EVALUATION CRITERIA [BEC]"

[FOR STRICT COMPLIANCE]

- [I] BIDDERS MUST FURNISH ALL RELEVANT CERTIFICATES/DOCUMENTS/INFORMATION IN SUPPORT OF THEIR CREDENTIALS TO THE ABOVE "ELIGIBILITY CRITERIA" ALONGWITH THE 'OFFER', FAILING WHICH THE 'OFFER' MAY BE REJECTED SUMMARILY.
- [II] BIDDERS NOT MEETING ANY OF THE ABOVE- MENTIONED CRITERIA SHALL BE REJECTED WITHOUT ASSIGNING ANY REASON.

- *Risk evaluation, Risk Assessment & Risk Presentation*
 - *The risk should be calculated in terms of probability of death of an individual or fraction of population expected to die due to the exposure effects such as toxicity, heat radiation and overpressure etc.*
- d. *To recommend suitable risk reduction measures to mitigate the risks and hazards*

1.3. Hazard Identification

 - Past accidents data / information analysis in similar installations to develop the credibility of worst come worst accident scenarios.*
 - The individual risk computed would be presented in the form of risk transects which represents the chance of an individual fatality. The estimate risk levels will be compared with internationally acceptable risk acceptance criteria. Based on the findings of the analysis, risk conclusions will be made and suitable recommendations will be suggested.*

4. Dispersion calculation for the airborne toxic chemicals shall be carried out to arrive at the damage distances and impact zones for the chosen threshold values (Damage Criteria)
5. For dispersion modeling, predominant influencing factors being the wind speed and stability classes for the region shall be considered. Two sets of stability class and wind velocity combinations shall be used one representing typical day conditions and the other night conditions.
6. Damage criteria for the study shall be based on thermal radiation, overpressure and exposure to toxic substances.
7. The consequence analysis and risk calculation should be made for cases of direct ignition, delayed ignitions based on the suitability to the installation considering the probability for the same and accordingly the effect of consequences such as jet fire, pool fire, flash fire, explosion, unconfined vapor cloud explosion (UCVE) should be evaluated
