SPECIFICATIONS AND DRAWINGS

1.0 SPECIFICATIONS:

- 1.1 The specifications for the entire work shall be in accordance with the specification and standards given at Master List of Documents (Technical) placed at Annexure-I.
- 1.2 Whenever the specifications are silent, the same shall be governed by CPWD/APWD Specifications, IS codes, sound engineering practice and the decision of the Engineer-In-Charge in matter of interpretation shall be final and binding on the contractor.

2.0 DRAWINGS:

- 2.1 The drawings for the contract are mentioned in Master List of Documents (Technical) placed at Annexure-I
- 2.2 The provisions of Schedule of Rates, specifications and drawings shall be read in conjunction with each other and in case of conflict amongst them, clarification shall be obtained from the Engineer-in-Charge whose decision shall be final and binding. However, the following procedure may generally be followed:
 - Description of items in schedule of rates shall be followed when provisions therein are different from those in specifications.
 - Where the description of item does not call for some specific requirement but the same is given in specifications, the specification shall be followed in addition to the requirement given in description of item.
 - Where drawings call for requirements different from or additional to those given in item description and specifications, the decision of the Engineer-in-Charge as to what shall be followed.
